

The Wake County Board of Education recognizes that an effective educational program must be supported by services that assist students in accessing educational opportunities to receive a sound basic education **and to meet the Board's strategic plan goals**. The Board also recognizes the need for services that help the school system use resources necessary for an educational program in an effective and efficient manner.

The Board and superintendent will continue to collaborate with the Wake County Board of Commissioners **as well as state and federal** funding sources to highlight the importance of support services.
